

# To be truly motivated in the classroom, teenagers need to connect their dreams to the work they are doing today.

*The Future Stars Series* is built on the dreams of amazing teenagers from around the country. They are chasing careers in sports, business, entertainment, computers, medicine, the environment, and more! Reading about their amazing journeys will motivate your students to think about their future—and realize that they, too, can achieve great things! Your students will choose their careers based on their interests. In handing them *The Future Stars Series*, you can help ignite their passion and fuel their futures! Tomorrow is too late, the journey must begin today!
